INSIGHTS FOR SUPERSTORE DATA

1. Financial Performance

- Total Revenue: **$16M**
- Total Profit: **$1.94M**
- Overall Profit Margin: **12%**
- Business is profitable but margin improvement opportunity exists.

2. Regional Performance

- **West and East** are the top revenue contributors (~30% each).
- **Central region has very low profit margin (4%) despite solid revenue share.**
- South contributes the lowest revenue share (~17%).
- Central region requires pricing or cost optimization review.

3. Category Performance

- Revenue is evenly distributed across **Furniture, Technology, and Office Supplies**.
- No overdependence on a single category (balanced portfolio).
- Further margin analysis by category recommended.

4. Sales Trend & Seasonality

- Strong sales spikes in **Q4 (Nov–Dec)**.
- Clear seasonal dependency on year-end demand.
- Opportunity to boost Q2–Q3 sales for revenue stabilization.

5. Operational Insights

- Delivery time varies significantly by shipping mode.
- Standard Class has the longest delivery time (~5 days).
- Faster shipping options significantly reduce delivery time.
- Potential impact on customer satisfaction and repeat purchases.

6. Strategic Focus Areas

- Improve profitability in Central region.
- Optimize discount strategy.
- Reduce seasonal dependency.
- Enhance operational efficiency in shipping.
